4. Community spirit is a feeling of involvement in, and concern for, my local community
5. Community spirit is the feeling of pride in their local area
6. Sustainable development is development of an area that meets the needs of the present without compromising the ability of future generations to meet their own needs

7

The world of work can be split into different categories.

Industry is what we call making things. *Employment* is another word for a 'job', and jobs can be said to be either *primary*, *secondary*, *tertiary* or *quaternary* roles.

Primary roles obtain natural or raw materials. Examples include agriculture, forestry and fishing.

Secondary roles use the materials produced by the primary industries. Examples include manufacturing, food processing, oil refinery and energy production.

Tertiary, also called the *service sector*, involves selling or services and skills.

Quaternary roles provide information services, for example computing, ICT, consultancy or research and development.

Can you work out which is which in the pictures below?

5 words to remember

economic issues: things to consider in relation to how money is made, spent and allocated in spaces, for example *Should money be spent on a new railway, road or bike lane?*

environmental issues: things to consider relating to how humans and the natural world and spaces interact, for example *There is a new housing development in an area where the protected newt lives; should the houses be built?*

landmark: a significant human or physical feature that people know, name and recognise

social issues: things to consider relating to how people interact with each other and with nearby spaces, for example *A local park needs to be shared by everyone in the community; a small group of users is spoiling it for everyone – what should be done?*

sustainability: ensuring that whatever resources we use, and waste that we produce, is not too damaging for people and the planet's future

How like your house or school is this diagram of a house of the future?

What are the public services and amenities like in your area? Write a list of them, and link them to significant **landmarks**. Say whether you have visited them yourself.

Explain how you could redesign your school to make it more fit for the future.
